360° Solutions

When you are looking for a fast, flexible, quality building solution for any application, we can provide everything you need, so that you can use the space as soon as you walk in.

When you require additional space, you'll often need all the fixtures and fittings to go into that space too. That's why we offer complete turn-key solutions for every building, from storage containers, furniture hire, access steps, and white goods, to power generation, covered walkways, landscaping and more. Whatever you need, Ausco is here to help.

We call these smart space solutions our 360° Solutions.

Visit our website www.ausco.com.au for more information on our 360° Solutions range of products and services.

Interiors

Once you have selected the building, 360° Solutions have all the necessary furniture, appliances and fittings & fixtures for your requirements. With one supplier, you can have everything you need for a working space solution.

Removal and disposal of furniture

If the furniture is no longer required after the project, please do not throw it out!!

As part of our commitment to the circular economy we want to help to find a new home for the furniture after you have finished using it.

Please ask our team if you'd like us to arrange removal and donation to a local charity organisation.

We want to make your experience as simple and seamless as possible. Please contact your local representative and we'll work with you to find the right solution for your needs.

Compliance Made Easy with Eco Upgrades

RCLG Compliant & earns credit for ISC

To help construction companies meet RCLG requirements, we have developed a simple and cost-effective solution – the Ausco ECO upgrade option.

The Ausco ECO upgrade can be applied to existing and new modular building fleet and is available throughout Australia.

Specifications

- > LED lighting with motion sensors
- > Low VOC paint, adhesives and sealants
- > Insulation
- > Window blinds
- > Door closers
- > Water saving taps
- > Water efficient shower heads
- > Weather seals
- > Dual flush toilets

Reduce costs, improve efficiency

Our ECO upgrade options allow you to choose your level of compliance based on site and project requirements.

- ☑ Save energy, reduce heating and cooling bills
- ☑ Reduce indoor pollution, protecting the health of your staff
- ☑ Identify and eliminate energy wastage
- ☑ Improve environmental performance

Specifications & inclusions

ECO Upgrades

Generators

Our experienced team will work with you to supply the best generator from 20 kVa to 1250 kVa and deliver it to site along with the building, furniture and other services.

Let us be your temporary building specialist so you can focus on what you do best.

Power your site with Ausco

- > Trailer-mounted Generators
- > Skid Generators
- > Containerised Generators
- > Scalable Power Plants
- > Hybrid Generators

Specifications

- > 20kVA to 1,250kVA
- > Battery storage systems from 30kVA to 1MW
- > Fuel efficient small canopy generators
- > Large containerised diesel-powered generators
- > Natural eco-friendly, gas-powered generators
- > Low-maintenance, quiet units for low-noise

Applications

- > Quiet models for onboard or dockside
- > Towable, portable options
- > New advances in spill containment
- > 24/7 remote monitoring

Waste Storage Tanks

Conveniently tucked under the buildings, our waste tanks contain your footprint without taking additional space onsite.

- » Available in 4000 or 6000 litres.
- » Delivered and installed with the building, it is a simple way to manage your liquid waste.

Pump Out Services

- > Pump out & removal
- > Scheduled around works - Weekly/ Fortnightly
- > Available in select locations

* We offer high level alarms for peace of mind. Waste level monitors help to prevent unwanted overflows.

NEW! Product for Sale

High Level Warning Alarm System

The high level alarm system is designed to provide warning indication when waste storage (effluent, grey water etc) tank is either empty or full.

☑ This product is highly recommended to be used with our waste tanks for peace of mind.

Key Features

- > Designed to be plug and play
- > Safety low voltage DC outlet
- > Normally open solenoid
- > Designed to initiate both visual and audible alarms as soon as an alarm condition occurs
- > Audible alarm can be silenced by way of mute button or it will automatically silence after 5 minutes of sounding
- > Tough UV design for hot climate conditions
- > Solenoid function to cut water supply/flow

Product Information

- > Warning Conditions determined by Float Switch
- > Warning alarms are: **Audio - Buzzer and Visula - LED pilot light/strobe**
- > The buzzer can be muted Via the Mute button, The Visual alarms will remain on until the alarm condition is rectified.
- > The water solenoid is energised whenever a level alarm is activated meaning this shuts the water off to the amenities until the alarm condition is rectified

Visit our website www.ausco.com.au for more information on our 360° Solutions range of products and services.

Water Tanks

Check out our range of potable and non-potable water storage to help keep your site clean and functional throughout the project duration.

Potable Water tanks

- > Fresh drinking water storage available as a sale item
- > We supply and deliver to site, and assist you to arrange after sale services
- > Water tanks' sizes available on request

Non-Potable Water tanks

- > Fresh non-potable water storage for hire to operate your amenities
- > 2500L to 5000L tanks available
- > Delivered on a skid
- > Complete with pump
- > Combine with an Eco Upgrade for maximum benefit

Building Renter Protection (BRP)

With changing weather conditions and pressure on insurance premiums, our Building Renter Protection is a simple, effective way to ensure your project stays on track.

BRP is the low cost alternative to insurance that covers unforeseen charges due to accidents, theft, or damages from Acts of God.

BRP Product Benefits

- ✔ Low excess compared to building replacement/insurance excess
- ✔ Peace of mind for incidents outside of your control
- ✔ Saves time requesting a certificate of currency
- ✔ Saves money as you are only paying during the hire period
- ✔ Avoid insurance claims: all BRP claims are managed in house
- ✔ No application process as all customers qualify
- ✔ More coverage including vandalism and glass
- ✔ Premiums will not rise with claims
- ✔ Suits volatile weather patterns

Inclusions

Buildings:

- > Vandalism
- > Graffiti
- > Fire
- > Hailstorm
- > Flooding
- > Earthquakes
- > Cyclones / Tornado
- > Theft (incl forced entry & attempted force entry)

Ancillaries:

- > Fire
- > Hailstorm
- > Flooding
- > Earthquakes
- > Cyclones / Tornado

Exclusions

Buildings & Ancillaries:

- ✗ Misuse
- ✗ Abuse
- ✗ Excessive Wear and Tear
- ✗ Abandonment
- ✗ Willful Misconduct
- ✗ Personal Property / Contents
- ✗ Theft or vandalism to ancillaries
- ✗ Damage from collision during transport / relocation

Steps & Landings

In most applications, steps and landings will be required to allow for easy access in and out of your modular building.

Our steps and landings are available in standard and custom sizes to suit a wide range of site applications and requirements.

Simply get in contact with us and our team will be able to advise the most appropriate, safe and efficient solution to access your modular buildings.

* Please note steps and landings may vary from region to region.

To enhance your modular building experience, please contact your local Ausco representative for information about our 360° Solutions range of additional products and services.

13 62 11
ausco.com.au

NEW! Product for hire.

Single FRP Step

Easy, safe, lightweight and durable.

Top 5 Benefits!

- ☑ Easily installed.
- ☑ Adjustable to site conditions.
- ☑ Maintenance free.
- ⊗ NO more crates as a step.
- ⊗ NO more mud in the site buildings.

Key Features

- > Non-slip safety tread construction is both safe and a great way to give your boots a clean before entering the building.
- > Stainless steel adjustable legs will withstand the elements and provide height adjustment.
- > Designed to complement Ausco buildings and available as a hire product.
- > QR code on step for easy access to installation instructions and limitations.
- > Delivered with the building and easily installed by one person.

Product Information & Specifications

- > 1000 x 315mm step size ensures strong and stable footprint.
- > Adjustable from 165-220mm and design for egress and ingress on buildings 440mm or less in height.
- > Step constructed with Non-slip FRP grate and nosing.
- > Legs and feet constructed from 316 marine grade stainless steel and aluminium materials.
- > Suitable for level compacted surfaces.

Visit our website www.ausco.com.au for more information on our 360° Solutions range of products and services.

SealSafe™

Safe, seamless system for weather proofing modular buildings

SealSafe™ uses a patented 'track and sail' system to weatherproof joined modular buildings without the need for working at height.

The 'sail' is simply threaded through the track system and 'pulled' through the tracks, creating a water tight, weather resistant membrane that exhibits the same characteristics of traditional roofing.

Benefits

Safer

- > Eliminates accessing the roof to install buildings
- > No elevated work platforms
- > Significantly fewer health and safety compliance obligations

Faster

- > Installation time significantly reduced*
- > Less permits and site inductions
- > Less overall time on your site

NEW! Product for hire.

Dangerous Goods Container

Safe site compliance for your site chemicals & fuels

Top 5 Benefits!

- ✔ Comply with AS1940-2017 & Work Safe.
- ✔ Compact to reduce site footprint.
- ✔ Removable floor for easy cleaning.
- ✔ Built-in shelving for chemical storage.
- ⊗ No need for multiple suppliers.

Key Features

- > 10-foot steel container.
- > Compliant with AS1940-2017 & Work Safe regulations.
- > Forklift pockets for safe movement on the site.
- > Internal mesh shelving for chemical storage.
- > Removable floor for easy cleaning in the case of a spill.
- > Lockable, watertight and ventilated.
- > Transportable by tilt tray truck.

Visit our website www.ausco.com.au for more information on our 360° Solutions range of products and services.

Coverflex

Covered Modular Walkways

Coverflex modular covered walkways are the perfect solution to providing instant protection outside and in between your buildings on site. Ideal for construction sites and a great alternative to custom-built decking and landings.

Speed

Coverflex modules can be delivered to site the same time as your buildings.

Safety

Non-slip covering increases grip, reducing the risk of injury.

Coverflex add-on handrails reduce the risk of falls.

Economical

Pre-built modules are cost effective on short-term projects and result in less waste on site.

Flexibility

Modules can be arranged in a number of ways giving flexibility for your site requirements.

Relocatable

Coverflex modules can move with your buildings.
